Since its landslide victory in **2020**, the Aam Aadmi Party (AAP), led by **Arvind Kejriwal**, had dominated Delhi's political scene. However, by **2023**, the party began **losing ground due to multiple governance failures and corruption scandals**.

A. Corruption Allegations Against AAP

B. Governance Issues & Public Discontent

AAP's **initial appeal** was based on its **pro-people policies** such as free water, electricity subsidies, and improved education. However, between **2022 and 2024**, several governance failures led to growing **frustration among Delhi voters**:

1. **Rising Pollution & Environmental Mismanagement**
   - Despite being in power for a decade, **AAP failed to curb Delhi's air pollution crisis**, which worsened in **2023 and 2024**.
   - The **odd-even vehicle scheme** proved ineffective.
